VISION
Our graduates are leaders of the planning profession and guides to sustainable futures.

CORE VALUES

- 40-year history of service to communities and the profession
- Advocating planning with, not for, the public
- Problem solving at a community scale
- Recognition that diversity is essential for natural, social, and economic sustainability

EWU's BA-URP provides unique opportunities for those who desire a role in shaping a better future.

BECOME A PLANNER FOR YOUR COMMUNITY

ABOUT OUR PROGRAM

Planning is a problem-solving profession concerned with the forces that influence the quality of life in the neighborhood, city, region, state, nation and world. Thus, planning provides a unique occupational avenue for those who desire a role in shaping a better future.

The mission of the urban and regional planning programs at EWU is to provide quality professional planning education, research, and community service with an emphasis on problem solving on a local level.

OUR GOALS

To provide communities and agencies with competent professionals in the field of urban and regional planning.

To prepare professionals who can develop and administer planning policies for economic vitality, recourse efficiency and environmental quality of communities and regions.

To fulfill the need for planning-related research with particular emphasis given to research benefiting the region and state.

To provide community services in the form of continuing education for public officials, practicing professionals and citizens, technical assistance or area agencies and communities, information and technology exchange with appropriate local, state and federal authorities.
